The NOMAP community doesn't really have a pride flag, so in honor of pride month I designed a NOMAP pride flag.

The top two stripes are blue to represent NOMAPs attracted to young boys.

The bottom two stripes are pink to represent NOMAPs attracted to young girls.

The inner stripes are yellow to represent childhood and general attraction to minors, regardless of their gender.

The middle stripe is white to represent our innocence and unwillingness to offend.

Please feel free to use this flag and make icons out of it etc! Hope you enjoy

**Breaking: Trans Activist Arrested After Stabbing Spree in Massachusetts--6 people stabbed in separate attacks by suspect who identifies as transgender woman**

A man has been taken into custody after six people, including 4 girls at a movie theater, were stabbed in separate attacks, police in Massachusetts said.

Police said suspect Jared Ravizza entered an AMC multiplex without paying on Saturday evening and suddenly attacked four girls ages 9 to 17 "without saying anything and without any warning" and then fled. "Without saying anything and without any warning, he suddenly attacked and stabbed the four young females," police said of the suspect. "The attack appeared to be unprovoked. After the attack, the man ran out of

the theater and left in a vehicle."

I would love someone to run the numbers, because it seems like trans people have to be the demographic with the largest share of mass violence.

It's like .05% of the population commits 1/4 of the mass shootings/stabbings.

Child Molesters are rebranding themselves as ‘MAPs’ or ‘Minor Attracted Persons’ in an effort to gain acceptance and be included into the LGBTQ community.

For years now, we’ve been telling you that eventually the ever-growing alphabet soup that is the **LGBTQ Movement** would, at

some point, have to add a ‘P’ to their acronym. The letter ‘P’ of course standing for pedophile. Why is this inevitable?

to be a part of the LGBTQ+ community, even going so far as to make a “Pride” flag for Gay Pride Month. The “MAP/NOMAP community” tries to pull at people’s heartstrings by claiming that pedophiles are misunderstood marginalized people, and that as long as their attraction to children is not acted upon — or in some cases when they get permission from the child — that they should not be villainized.

When I was a child, men who wanted to dress up as women were treated rightfully as someone who had either an extreme fetish or mental illness. It was not presented as something that was anything remotely close to normal. The character of Klinger from the 1970’s M\*A\*S\*H television show kept trying to be discharged from the army on a Section 8, which is a discharge related to mental illness. How did he angle that? By dressing up in women’s clothing. Flash forward to 2018 where the United States Military is paying for transsexuals to have ‘gender switching’ surgery, courtesy of the American taxpayer. For those of you not paying attention to the world around you, that is an unprecedented paradigm shift. What was deemed a mental illness just one generation ago has somehow become a ‘protected right’. **FROM THE US DEPARTMENT OF DEFENSE:** Effective immediately, transgender Service members may serve openly, and they can no longer be discharged or otherwise separated from the military solely for being transgender individuals. In Canada right now, with the passage of Bill C-16, jail time awaits for anyone who intentionally calls a trans person by the wrong pronoun.

The modern-day history of the Catholic Church is one of institutionalized pedophilia, and spending millions to keep it quiet. So is it any wonder that they are in the process of welcoming the LGBTQ, and soon the P, into the Catholic Church? All part of the end times plan.

Teens and young adults are constantly in their own worlds listening to music pumping out of their headphones everywhere they go. ### [Drinking Water Warning Issued Nationwide](#)

[Published May 20, 2024--The Environmental Protection Agency \(EPA\) issued an enforcement alert Monday urging water utility systems to take immediate actions to protect the nation's drinking water from cyberattacks.](#)

[According to the EPA, recent federal inspections revealed that 70 percent of U.S. water systems inspected do not fully comply with requirements in the Safe Drinking Water Act. The agency added that some systems have "critical cybersecurity vulnerabilities, such as default passwords that have not been updated and single logins that can easily be compromised."](#)

[Possible impacts of cyberattacks include interruptions to water treatment and storage and damage to pumps and valves, along with alteration of chemical levels to hazardous amounts, the EPA said.](#)

"In many cases, systems are not doing what they are supposed to be doing, which is to have completed a risk assessment of their vulnerabilities that includes cybersecurity and to make sure that plan is available and informing the way they do business," EPA Deputy Administrator Janet McCabe said in a press release.

The warning said China, Russia and Iran have "disrupted some water systems with cyberattacks and may have embedded the capability to disable them in the future."

### More Illegal Aliens Living in The U.S. Than All Our Military Forces, Combined - Mexican Illegal Alien Breaches Laughlin Air Force Base In Texas, While Chinese Illegals Crossing The U.S. Border Break Another Record

Knowing China is hostile to the U.S., makes the following statistics even more egregious.

The data below comes from a [report issued in April](#) detailing border stats for March FY 2024.

- So far in FY24, [24,376 Chinese nationals have been encountered at the Southwest border](#). Encounters of Chinese nationals in March 2024 increased 8,500% compared to March 2021, and have surpassed all of last fiscal year—just six months into FY24.

It is critical to note here that the majority of Chinese nationals entering the U.S.

illegally are military-aged men. They are building an army within the U.S. THIS IS A LITERAL INVASION.....

Other numbers provided in the report are just as concerning, including the number of "gotaways," meaning those that evaded border control all-together, so the numbers are basically a guess, but even said guess is dangerous beyond belief.

- Since President Biden and

Secretary Mayorkas took office, there have been [9.2 million encounters nationwide](#) and over [7.6 million encounters at the Southwest border](#).

- Additionally, over 1.8 million known gotaways have evaded U.S. Border Patrol under this administration. [In testimony before the Committee](#) last year, then-chief of U.S. Border Patrol (USBP), Raul Ortiz, said the [total number of gotaways could be undercounted by as much as 20%](#).

- At the SW border in March 2024, CBP encountered [113,742 single adults](#), [66,641 family unit individuals](#), and [8,829 unaccompanied children](#).

Nearly 114,000 single adults. Let that sink in.

Let us put this into perspective. In 2023 there were 172,000 marines.

[In just six months](#) of the fiscal year 2024, from October to March, the amount of single adults crossing the border illegally is just over 63,000 short of the largest

U.S. military branch. If the next six months brings even half the amount of single adults crossing the border, it will be more than our entire Marine Corp, and this has been going on for years under Biden, less so under Trump's term.

[As of September 2023](#), reported active-duty troops included:

453,551 in the Army

332,322 in the Navy

318,698 in the Air Force

172,577 in the Marine Corps

8,879 in the Space Force.

There are more illegals in the U.S. than all of our military forces combined.

[Self-checkout scanning and paying machines are CRAWLING with fecal matter, health experts warn](#)

All that "contactless" technology that was implemented alongside the covid scandemic comes with a price: **increased exposure to fecal matter** all over the surfaces and screens.

Self-checkout computer screens and card readers, which were supposed to make shopping "safer" by minimizing contact between humans, are **loaded with feces** and other "vomit-inducing bugs," British scientists say.

Swab samples revealed the presence of thousands of bacteria, including *E. coli*, all over payment machines. Such bacteria are linked to urinary tract infections (UTIs) and *Candida albicans*, a type of yeast infection that infests the mouth, throat, gut, etc.

Similar studies on escalator railings, eating tables, and other things people touch while out in public revealed similar pathogens. Shared desks at work are another source of potential infection, as are shared computer keyboards.

"The self-checkout samples had one of the highest bacterial loads, as we found five different types of potential disease-causing bacteria surviving on them," said Dr. Adam Roberts, chief researcher at the agency.

(Related: Commercial airplanes are **loaded with fecal matter** as well – it is all over the seats and food trays.)

Roberts said he and his team also **found multiple types of *E. coli* as well as another bacteria called *Klebsiella* on computer keyboards.** These pathogens are all naturally found in feces and in the intestines, and "given the right environment," he said, "they are able to cause quite severe diseases in humans, so it's vital that we wash our hands before and after eating when working at the computer."

From a Medical Doctor: Share this video, all HEALTHCARE professionals need to know about this!! We used to think we had job security and that we couldn't be replaced, well AI is jeopardizing our position

👉 Pay Attention, if they have the scientific evidence to support AI is BETTER for patient care outcomes (which so far they have), I believe the public will become more receptive to the idea AND that will give these healthcare orgs the GREEN LIGHT 🟢 to use AI in many of our roles.

## Listener Testimonies on the Covid Kill Shot Annihilating Their Family Members and Friends

*My cousin got the kill shot. Not long after, she and her husband were out riding around on their motorcycle and she suddenly became paralyzed. She has now been diagnosed with MS. She was fine til she took the shot. Her husband took the shot too and he has had to have amputation of feet (leg or feet, can't remember) due to some diabetic thing that happened after he took the vax. My cousin's mom - my sweet aunt - got the kill shot several times and now she is blind and has MS symptoms too. My other aunt is a nurse so she of course got the kill shot. I am not close to her because of her marriage to my narcissistic uncle, but I saw on social media yesterday that she is bald, so I'm assuming she may have cancer. Her son, who got the shot too, is only in his forties and he has been battling cancer after getting that shot. One of my closest friends has a son in the military and they pressured him into getting the shot. He is now very suicidal and blasphemes God on a regular basis- he has always been known as a true Christian prior to getting the shot. You can't make this stuff up.*

**What The Cancer Industry Does Not Want You To Know About Chemotherapy and Radiation**

- Radiation-induced secondary cancers have exploded in the last two decades due to radiation treatment
- 90% of chemotherapy patients die 10-15 years after treatment and the cause is never attributed to treatment
- More than 50% of all cancer patients suffer significant treatment-related toxicity.
- Chemotherapy does not eliminate breast, colon, or lung cancers yet chemo drugs are still used on these cancers.
- Patients who undergo chemo are 14 times more likely to develop leukemia and 6 times more likely to develop cancers of the bones, joints, and soft tissues than those patients who do not undergo chemotherapy.
- Chemotherapy drugs directly damage DNA
- Chemotherapy actually boosts cancer growth
- 68% increase in Chemo drugs since 2003
- 75% increase in cancer projected by 2030

*My younger sister's husband is 64 he took 2 of the jabs - they found cancer in his tonsils so they removed them last week and the doctor called yesterday and wanted to talk to them in person today - they could not get all the cancer from the left tonsil because it was too deep. The doctor today told him he wants to have all his teeth removed and start radiation and he gives him 6 months to live. My sister was in hysterics she begged him not to do chemo or radiation but he is one of them that thinks doctors know best. It just sounds barbaric to me to pull all the teeth and blast him with radiation*

**Chemotherapy proven to cause long, agonizing, suffering death**

3/20/2014 - New evidence confirms what we've known here at Natural News for some time -- that chemotherapy is one of the worst forms of cancer treatment there is, primarily because of the horrific chemicals involved, but also because it is simply an agonizing way to kill. According to a newly published study...

**Chemotherapy myth shattered: toxic drugs cause more cancer than they prevent**

3/18/2014 - New research funded by the U.S. National Institutes of Health (NIH) has shattered the prevailing myth that chemotherapy drugs actually fight cancer.

**Terminal cancer patients spend final days suffering from radiation therapy that does nothing**

**High-dose radiation for prostate cancer worsens patient outcomes**

**Vaxxed 'Super Size Me' Star Morgan Spurlock Dead of Cancer at 53--**

**Documentary filmmaker previously encouraged others to take Covid jab**

**Documentary filmmaker Morgan Spurlock, known for his groundbreaking exposé "Super Size Me" where he chronicled the effects of consuming only McDonald's for a month, died this week from terminal cancer at the age of 53.**

The filmmaker, who had been receiving chemotherapy treatment, evidently promoted the Covid-19 vaccine, prompting many to speculate the jab may have caused Spurlock to develop "turbo cancer."

Morgan Spurlock, who I've had the honor of meeting..., just died of cancer. **He ate so healthy!! 🤔 Do you know what he had in common with the others? .**

If I am understanding this correctly, artificially engineered viral strains of bird flu that are now infecting across species and causing a call by the USDA, for livestock to be culled, have now been traced back to a Former Gates Foundation scientist who is now the Director of the USDA lab in Georgia (US) where GOF research on bird flu was being done on this facility. It's time for our state Governors and US legislature to step in and say "No"—not again! You will not terrorize the planet with these bio weapons against US citizens and our food supply any longer!

While Trump is in a playful mood watching Joe the Dog collapse, Trump must really enjoy watching his possible victims collapsing during VaxMania. Let's face it. Clinton, Bush, Obama, Trump, Biden...were all selected because they do what they are told. They "Build Back Better" — which is code for destroying our world to enslave us. BClinton, Obama, and Trump were all selected in part because they are great con-men and are organically corrupt. Bush and Biden are not great con-men but they have name recognition and are organically corrupt...Biden made it mostly because he is ultra-corrupt, stupid, and was just one of the last men standing from his flock of sleazegulls. This is why I don't get invited to cool parties.
